

YOSR BEN NAGRA

Phone: +216 53916040
Email: yosrbennagra@gmail.com

FULL-STACK DEVELOPER

Address: Sokra, Ariana, Tunisia
GitHub: <https://github.com/YosrBennagra>

Summary

Full-Stack Developer with expertise in building scalable web platforms using modern technologies. Experienced in AI integration, real-time collaboration features, and DevOps automation. Proficient in JavaScript/TypeScript ecosystem (React, NestJS), Java/Spring Boot, and Python with strong focus on clean architecture and testing practices.

Skills

Frontend: HTML5, CSS3, React.js, Angular	Databases: SQL, MongoDB
Backend: Node.js, NestJS, Flask, Spring Boot, REST APIs	DevOps: Git, CI/CD, Docker, Jenkins
Programming: JavaScript, TypeScript, Java, Python	AI/ML: Hugging Face, RAG, Model Fine-tuning

Education

Engineering Degree in Computer Science
Web and Internet Technology Track
Private Higher School of Engineering and Technology (ESPRIT)
09/2020 - 10/2025 Tunis, Tunisia

Experience

Full-Stack Developer Intern (End-of-Studies Internship)
ITServ
Feb 2025 – Aug 2025

- Designed and developed a full-stack web platform integrating AI, DevOps, and Retrieval-Augmented Generation (RAG).
- Implemented an AI-powered symptom checker, blog for doctors, patient forum, and admin dashboard with an AI RAG pipeline.
- Applied DevOps practices (CI/CD, containerization, monitoring) and fine-tuned an AI model on medical datasets for improved diagnostic accuracy.
- Technologies: ReactJS, NestJS, MongoDB, Python, Hugging Face, Docker, Jenkins.

Full-Stack Developer Intern
IronByte
Jun 2024 – Aug 2024

- Developed a web application for an educational institution enabling students to submit assignments and teachers to share lessons.
- Built features using NestJS, ReactJS, MongoDB, TypeScript, and JavaScript; added timetable creation tool improving scheduling efficiency.

Full-Stack Developer Intern
Ooredoo Tunisie
Jul 2023 – Sep 2023

- Built an internal communication application with real-time chat, filtering, and search to streamline team collaboration.
- Developed front-end and back-end components using Spring Boot and Angular; added unit and integration tests for reliability.
