Experience

Full Stack Developer
Northwind Health

May 2022 – Nov 2024

- Built patient-facing portal with React and Node.js, reducing support tickets by 28 percent
 - Implemented role-based access control and JWT auth across services
 - Optimized MongoDB queries and indexes, cutting average API latency from 420ms to 160ms
- Keywords: React, Node.js, Express, MongoDB, TypeScript, REST APIs, JWT

Full Stack Developer
Atlas Retail

Jan 2021 – Apr 2022

- Delivered real-time inventory dashboard with WebSockets and React, improving stock visibility for 6 teams
 - Designed reusable UI components and form validation patterns used across 4 product areas
 - Integrated Stripe payments and webhook processing with idempotent job handling
- Keywords: React, Redux, Node.js, Express, WebSockets, Stripe

Software Engineer
Pinecone Labs

Jun 2019 – Dec 2020

- Shipped internal admin tools for user management and reporting used by 100+ staff
 - Migrated monolithic API endpoints to modular Express services with shared middleware
 - Added CI checks and unit tests, raising coverage from 35 to 70 percent
- Keywords: JavaScript, Express, MongoDB, Jest, GitHub Actions

Education

B.S. in Computer Science
University of Texas at Austin

Sep 2015 - May 2019

Projects

TeamPulse - Project Tracking Platform
Personal Project

2024

- Built a Jira-style board with drag-and-drop, activity history, and audit logs
 - Implemented real-time updates via Socket.IO and optimistic UI patterns
- Keywords: React, Node.js, Express, MongoDB, Socket.IO

ShipRight - E-commerce Storefront
Freelance Project

2023

- Delivered responsive storefront with product search, filters, and checkout flow
 - Integrated inventory sync and order webhooks for fulfillment updates
- Keywords: React, Redux, Node.js, Stripe, REST APIs

Skills

Frontend: React, Redux, TypeScript, JavaScript, HTML5, CSS3
Backend: Node.js, Express, REST APIs, WebSockets
Databases: MongoDB, Mongoose, PostgreSQL
Cloud & Hosting: AWS (EC2, S3), Vercel, Render

Testing & Quality: Jest, React Testing Library, Postman
DevOps: Docker, GitHub Actions, CI/CD
Auth & Security: JWT, OAuth2, OWASP basics
Practices: Agile/Scrum, Code Reviews, Documentation

Certifications

AWS Certified Cloud Practitioner

2023

Languages

English (Native) | Spanish (Professional)
