Professional Summary

Customer support professional with hands-on experience in the Uber Eats sales operation at Concentrix. Strong in phone-based communication, CRM documentation, follow-up workflows, and multilingual customer interaction. Known for detail orientation, accurate information handling, and maintaining service quality in high-volume operations.

Core Skills

Customer Support: Phone-based customer communication, onboarding support, follow-up management, service quality tracking

CRM and Documentation: Salesforce CRM, interaction logging, pipeline tracking, record accuracy

Communication: Professional verbal and written communication, customer-focused approach, multilingual support (English/French/Arabic)

Operations: Multitasking, information verification, detail-oriented execution, remote collaboration

Professional Experience

Client Service Advisor 1 – Uber Eats Sales Operation

Concentrix, Tunis

02/2026 – Present

- Contact restaurant owners by phone to support onboarding to the Uber Eats platform.
- Use **Salesforce CRM** to document calls, track follow-ups, and maintain pipeline updates.
- Provide multilingual customer communication (English, French, Arabic) with clear and professional guidance.
- Perform service-quality follow-up and keep customer records accurate and up to date.
- Manage multiple ongoing outreach and follow-up tasks while maintaining response quality.

Full Stack Developer (Angular/Spring Boot) – ERP Application

Wico

2024 – Present

- Work directly with the client of an ERP application for a construction company: requirements gathering, translating needs into backlog items, follow-up and delivery (part-time 2024–2025, full-time since 2026).
- Develop the application end-to-end with Angular and Spring Boot; supervise and mentor junior developers.

Founder and Full Stack Developer – Veinpal

Tunis (Remote)

2025 – Present

- Coordinate product operations across multiple releases, maintaining consistent documentation and tracking.
- Work in a remote-first environment with structured communication and task follow-through.

Full Stack Developer (Internships and Academic Projects)

Itserv, Ironbyte, Ooredoo, ESPRIT

2023 – 2025

- Delivered projects requiring precise information handling, collaboration, and timely execution.
- Contributed to testing and quality workflows to improve reliability and reduce delivery issues.
