

# YOSR BEN NAGRA

[ROLE]

+216 53916040 | yosrbennagra@gmail.com | Tunis, Tunisia | Portfolio | GitHub | LinkedIn

## Profile

Full-stack developer (React/TypeScript, Node.js/NestJS) and founder of Veinpal, a platform shipping 5 products with complete CI/CD. Internship track record across AI applications, real-time systems, and enterprise telecom software. [1 LINE TAILORED TO COMPANY AND ROLE].

## Key Achievements

- Founded and solo-built **Veinpal** — 5 shipped products on a Next.js 15/React 19 monorepo
- Improved scheduling efficiency by **40%** with intelligent algorithms (Ironbyte internship)
- Delivered an **AI medical diagnosis app** end-to-end: React, Flask, Hugging Face, RAG, CI/CD
- Built **41-mode** training platform (TypeW) with scalable game registry architecture

## Experience

- Full-stack Developer (PFE Internship)** — Itserv, Tunis02/2025 – 08/2025
  - AI medical diagnosis app: React/TypeScript, Flask REST API, PostgreSQL + MongoDB, TensorFlow/Transformers
  - Full CI/CD (Jenkins, SonarQube) and monitoring (Prometheus, Grafana)
- Full-stack Developer (Internship)** — Ironbyte2024
  - Educational platform (NestJS, React, MongoDB) with automated timetable creation (+40% efficiency)
- Full-stack Developer (Academic Project)** — ESPRIT2024
  - Notion-like collaborative editor (React + NestJS) with real-time WebSockets and CI/CD
- Full-stack Developer (Internship)** — Ooredoo2023
  - Spring Boot services (DAO/DTO, secure REST) and Angular/PrimeNG front with real-time chat and admin tools

## Skills
