Professional Summary

Full-stack developer (React/TypeScript, Node.js/NestJS) with hands-on internship experience delivering AI, real-time, and enterprise applications, and founder of Veinpal, a platform shipping 5 products with complete CI/CD. [ADD 1 LINE MATCHING THE POSTING: stack + what you would bring to COMPANY].

Technical Skills

Frontend: React, TypeScript, JavaScript, Next.js, Redux Toolkit, Zustand, React Query, HTML5, CSS3, Tailwind CSS
Backend: Node.js, NestJS, Express.js, Flask, Spring Boot, Java (8/17/21), GraphQL, REST APIs, WebSockets
Databases: PostgreSQL, MongoDB, Redis, SQL, Prisma, TypeORM, Mongoose
DevOps & Quality: Docker, Kubernetes (basics), Jenkins, GitHub Actions, SonarQube, Prometheus, Grafana, CI/CD, Git
Testing: Jest, React Testing Library, Cypress, Vitest, Playwright, TDD

Professional Experience

- Full-stack Developer (Final Year Internship - PFE)** — Itserv, Tunis02/2025 – 08/2025
 - Built an AI medical diagnosis app: React/TypeScript frontend, Flask REST API, hybrid PostgreSQL + MongoDB
 - Integrated AI models (Hugging Face Transformers, RAG, fine-tuning, TensorFlow) for disease prediction
 - Set up full CI/CD: Jenkins, SonarQube quality gates, unit tests, Prometheus/Grafana monitoring
- Full-stack Developer (Internship)** — Ironbyte, Tunis2024
 - Developed an educational platform (NestJS, React, MongoDB, TypeScript): assignments, lessons, timetables
 - Improved scheduling efficiency by 40% with intelligent scheduling algorithms; WebSockets; CI/CD
- Full-stack Developer (Academic Project)** — ESPRIT, Tunis2024
 - Team-built a Notion-like collaborative document editor with React and NestJS
 - Implemented real-time collaboration via WebSockets and a complete CI/CD pipeline
- Full-stack Developer (Internship)** — Ooredoo, Tunis2023
 - Architected Spring Boot services (DAO/DTO layers, secure REST endpoints) for an internal communication suite
 - Delivered Angular + PrimeNG frontend: real-time chat, advanced filtering, admin tools, unit/integration tests

Personal Projects

Veinpal (Founder, 2025–Present) — veinpal.com — Platform shipping 5 products (web tools, games, a Windows app). Next.js 15, React 19, TypeScript 5, PostgreSQL 16, Prisma, Redis, Turborepo, full CI/CD.
TypeW — Typing and cognitive training platform, 41 game modes. React 19, TypeScript, Zustand, Vitest, GitHub Actions, Vercel.

Education & Certifications

ESPRIT — Computer Science Engineering studies, Tunis2020 – 2025
Certifications: Building RAG Apps Using MongoDB (2025), Hashgraph Developer Program (2025)
