

Yosr Ben Nagra

React Focused Developer

+216 53916040

Tunis, Tunisia

portfolio-yosr.vercel.app | GitHub | LinkedIn

Summary

Full stack developer with 4+ years of experience building web applications with React, TypeScript, and Python. React is my primary area of expertise, and I focus on building fast, accessible user interfaces. Comfortable owning features end-to-end, from API design to UI delivery, with a focus on performance, testability, and user experience.

Experience

Nimbus Health

Software Engineer

Seattle, WA

Mar 2023 – Present

- Built patient portal features that reduced appointment scheduling time by 30%.
- Designed REST APIs in Python (FastAPI) and integrated role-based access control.
- Improved CI pipeline with parallel test execution, cutting build time by 40%.

Blue Orbit Labs

Full Stack Developer

Remote

Jun 2021 – Feb 2023

- Delivered a multi-tenant dashboard in React and Node.js serving 50+ clients.
- Implemented data export and reporting tools used by operations teams daily.
- Collaborated with design to ship accessible UI components across products.

Projects

Final Year Internship (PFE) - AI Medical Diagnosis App

02/2025 – 08/2025

Itserv, Tunis, Tunisia

Full-stack Developer (Internship - PFE)

- Built a body map interface to select a body part and symptoms, then predict likely disease using AI.
- Implemented AI pipeline with Hugging Face, Transformers, and TensorFlow.
- Built a React + Flask app with hybrid databases: PostgreSQL (user data) and MongoDB (medical data).
- Set up CI/CD and observability with Jenkins, Prometheus, Grafana, SonarQube, and unit tests.

Academic Project - Collaborative Documents App (Notion-like) *ESPRIT : Ecole Supérieure Privée*

d'Ingénierie et de Technologies (esprit.tn), Tunis, Tunisia

Full-stack Developer (Academic project)

- Developed an in-team full-stack collaborative document editor using React and NestJS.
- Implemented real-time collaborative editing using WebSockets.
- Built and maintained a complete CI/CD pipeline for automated testing and deployment.

Internship - Educational Platform with Timetable Tool

Ironbyte (2024)

Full-stack Developer (Internship)

- Built a web application for assignment submission, lesson sharing, and automated timetable creation.
- Implemented intelligent scheduling algorithms, improving scheduling efficiency by 40%.
- Tech: NestJS, React, MongoDB, TypeScript, JavaScript, WebSockets, CI/CD.

Internship - Internal Communication App

Ooredoo (2023)

Full-stack Developer (Internship)

- Built an internal communication suite: Spring Boot services (DAO/DTO), secure REST endpoints, and Angular + PrimeNG front end.
- Delivered real-time chat, advanced filtering/search, and admin tooling; covered by unit and integration tests.
- Tech: Spring Boot, Angular, Java, TypeScript, WebSockets, Testing.

Education

ESPRIT : Ecole Supérieure Privée d'Ingénierie et de Technologies

2020 – 2025

Studies in Engineering / Computer Science

Lycee Soukra

2019

Baccalaureate in Computer Science

Skills

Frontend: React, TypeScript, JavaScript, HTML, CSS

Backend: Node.js, Python, Flask, PostgreSQL, MongoDB

AI/ML: Hugging Face, Transformers, TensorFlow

CI/CD and Quality: Jenkins, SonarQube, Unit Testing

Observability: Prometheus, Grafana

Tools: Git, Docker, GitHub Actions, Jest

Languages

English (Native) | French (Professional)

Certifications

- CS107: C++ Programming — Saylor Academy (2022)
- Sustainability, Work Ethics Gender Equity — Honoris Online Academy (2024)
- Hashgraph Developer Program — Hadera (2025)
- Building RAG Apps Using MongoDB — MongoDB (2025)
