PROFESSIONAL SUMMARY

Full stack developer with a strong React focus and hands-on experience delivering production software across React/Next.js, Node.js/NestJS, Java/Spring Boot, and Python/Flask stacks. Strong in API design, real-time features, clean architecture, testing, and CI/CD workflows.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, Next.js, Angular, HTML5, CSS3, Redux Toolkit, Zustand, React Query, React Router, Tailwind CSS, MUI, Chakra UI

Backend: Node.js, NestJS, Express.js, Fastify, Java (8/17/21), Spring Boot, Flask, GraphQL, REST APIs, Socket.io

Databases: PostgreSQL, MongoDB, Redis, SQL

ORM and Data Tools: Prisma, TypeORM, Mongoose

DevOps and Quality: Docker, Kubernetes (basics), Helm, Jenkins, GitHub Actions, SonarQube, Prometheus, Grafana, Nginx, Git

Testing: Jest, React Testing Library, Cypress, Vitest, Playwright

WORK EXPERIENCE

Founder and Full Stack Developer, Veinpal

2025 – Present

- Built and shipped a production platform for Windows apps, web tools, and games, including 5 products.
- Developed a full-stack monorepo with Next.js 15, React 19, TypeScript 5, PostgreSQL 16, Redis, and S3/MinIO storage.
- Implemented OAuth authentication, validation workflows, and CI/CD pipelines with automated testing.

Client Service Advisor 1, Concentrix (Uber Eats Sales Operation)

02/2026 – Present

- Onboard restaurant owners to Uber Eats and manage outreach follow-up using Salesforce CRM.
- Support multilingual communication and service quality across English, French, and Arabic.

Full Stack Developer (PFE), Itserv

02/2025 – 08/2025

- Built a React/TypeScript frontend and Flask backend with PostgreSQL and MongoDB for AI-assisted medical diagnosis.
- Integrated Hugging Face and RAG-based workflows, plus CI/CD, code quality, and monitoring practices.

Full Stack Developer Intern, Ironbyte

2024

- Developed a NestJS/React educational platform with automated timetable generation and improved scheduling efficiency.

Full Stack Developer Intern, Ooredoo

2023

- Delivered internal communication features using Spring Boot and Angular, including real-time communication and admin tooling.

SELECTED PROJECTS

OverlayOS – Windows desktop widget host with secure community plugin support and clean architecture using .NET 8, WPF, EF Core, SQLite, and DPAPI.

Secryx – Desktop secret inventory and monitoring app for env-like files with lifecycle tracking, SQLite history, and OS keychain storage (Tauri, Rust, React).

TypeW – Typing and cognitive training web platform with 41 playable modes and modular game registry architecture (React, TypeScript, Zustand, Vite).

Event-driven E-commerce – In-progress project using event-driven patterns, retries/idempotency, and observability.

Collaborative Documents Platform (Notion-like) – Team-built React/NestJS real-time document collaboration project.

EDUCATION

ESPRIT: Ecole Supérieure Privée d'Ingénierie et de Technologies

2020 – 2025

Engineering and Computer Science studies, Tunis, Tunisia

Lycee Soukra

2019

Baccalaureate in Computer Science

CERTIFICATIONS

Building RAG Apps Using MongoDB (MongoDB, 2025)

Hashgraph Developer Program (Hadera, 2025)

Sustainability, Work Ethics and Gender Equity (Honoris Online Academy, 2024)

CS107: C++ Programming (Saylor Academy, 2022)

LANGUAGES

English (Fluent), French (Professional), Arabic (Native)
