

YOSR BEN NAGRA

Full Stack Developer | React / Node.js / Java

@ yosrbennagra@gmail.com | Tel: +216 53916040 | Loc: Tunis, Tunisia

Web: veinpal.com | GH: YosrBennagra | LI: yosr-ben-nagra

PROFESSIONAL SUMMARY

Full stack developer and founder of **Veinpal** (veinpal.com/apps), a production platform shipping 5 products to real users. I build end-to-end web applications across the **React/Next.js**, **Node.js** (Express, NestJS), **Java** (Spring Boot), and **Python** (Flask) ecosystems. Hands-on with **PostgreSQL**, **MongoDB**, **Redis**, and modern DevOps tooling (**Docker**, **CI/CD**, monitoring). Strong focus on clean architecture, type safety, automated testing, and delivering measurable value in Agile teams. Fluent English.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript (ES6+), Next.js, Angular, HTML5, CSS3, Redux Toolkit, Zustand, React Query, React Router

Styling: Tailwind CSS, shadcn/ui, Material-UI (MUI), Chakra UI, Styled Components, Sass/SCSS, PrimeNG

Backend: Node.js, Express.js, NestJS, Fastify, Java (8/17/21), Spring Boot, Python, Flask, GraphQL, REST APIs

Real-time: WebSockets, Socket.io

Databases & ORM: PostgreSQL, MongoDB, Redis, Prisma, TypeORM, Mongoose, SQL

Auth: JWT, Passport.js, NextAuth.js (OAuth)

Testing: Jest, React Testing Library, Vitest, Cypress, Playwright

DevOps: Docker, Git, GitHub Actions, Jenkins, Harness, Nginx, Kubernetes (basics), Helm, Vercel, Netlify

Quality & Monitoring: SonarQube, Prometheus, Grafana, ESLint, Prettier, Commitlint

Build & Tooling: Vite, Webpack, Turborepo, pnpm Workspaces, Zod

Methods: Agile/Scrum, TDD, Code Review, CI/CD, Monorepo Architecture

CURRENT POSITIONS

Full Stack Developer (Angular/Spring Boot) – ERP Application

Wico | 2024 – Present

Tunis, Tunisia

- Develop an **ERP application** for a construction company end-to-end with **Angular** and **Spring Boot** (part-time 2024–2025, full-time since 2026)
- Work directly with the client: requirements gathering, translation into backlog items, feature delivery
- Supervise and mentor junior developers; apply **DevOps** practices (CI/CD, deployments)

Client Service Advisor 1 – Concentrix

02/2026 – Present

Tunis, Tunisia

- Contact **restaurant owners** to onboard them onto the **Uber Eats** platform as part of the sales operation, managing the full outreach and acquisition pipeline
- Use **Salesforce** CRM to track leads, manage follow-ups, and maintain sales pipeline data
- Provide **multilingual support** (English, French, Arabic) while maintaining service quality through clear communication and accurate follow-up

SOLO PROJECT

Founder & Full Stack Developer – Veinpal

veinpal.com/apps

Solo project

2025 – Present

- Founded and built a **production platform** for distributing Windows apps, web tools, and games – **5 products shipped** to real users, including Trayline (desktop system monitor with 1K+ downloads)
- Architected a **Next.js 15 monorepo** (Turborepo, pnpm Workspaces) with **React 19** Server Components, strict **TypeScript 5**, and a custom **Tailwind CSS/shadcn/ui** design system
- Implemented **PostgreSQL 16** with Prisma ORM, **Redis 7** caching (Upstash), **S3/MinIO** object storage for app downloads with presigned URLs
- Built **NextAuth.js v5** multi-provider OAuth (Google, GitHub, LinkedIn), Zod runtime validation on every API boundary, support ticket system
- Delivered full CI/CD pipeline: **GitHub Actions** (lint → typecheck → test → build → audit), **Vitest** unit/integration tests, **Playwright** E2E tests across browsers, **Commitlint** + Husky hooks

INTERNSHIPS

Full Stack Developer (PFE) – AI Medical Diagnosis Platform

Itserv, Tunis

02/2025 – 08/2025

- Built end-to-end application: **React/TypeScript** frontend with component-based architecture, **Flask** REST API backend, hybrid **PostgreSQL + MongoDB** database
- Integrated AI models (**Hugging Face Transformers**, TensorFlow) for disease prediction; implemented a **RAG pipeline** for context-aware medical inference
- Implemented **JWT** authentication with **RBAC** access control, interactive medical dashboards with data visualization
- Deployed complete **CI/CD** with Jenkins/Docker, code quality via **SonarQube**, production monitoring with **Prometheus/Grafana**

- Worked in **Agile/Scrum**: daily standups, sprint planning, code reviews, PO collaboration

Full Stack Developer – Educational Platform with Smart Scheduling

Ironbyte, Tunis

2024

- Built **NestJS/React/MongoDB** platform for assignment management, lesson sharing, and automated timetable creation
- Implemented intelligent scheduling algorithms achieving **+40% efficiency improvement** in timetable generation
- Developed optimized backend with MongoDB indexing, RESTful APIs with pagination/filtering, and real-time WebSocket updates
- Containerized with Docker, implemented CI/CD pipeline automation

Full Stack Developer – Internal Communication Suite

Ooredoo, Tunis

2023

- Architected **Spring Boot (Java)** backend with DAO/DTO layers, secure REST endpoints, and JWT authentication
- Developed **Angular + PrimeNG** frontend: real-time chat, advanced filtering/search, and admin dashboard
- Wrote comprehensive **unit and integration tests** to improve stability and delivery quality
- Used IntelliJ IDEA, Git workflows, and Agile ceremonies in a telecom enterprise environment

ACADEMIC PROJECT

Full Stack Developer – Collaborative Documents Platform (Notion-like)

ESPRIT, Tunis

2024

- Developed a full-stack **React + NestJS** collaborative document editor with TypeScript across the entire codebase
- Implemented **real-time collaboration** via Socket.io, rich text editor with formatting, permissions system, and version history
- Built **JWT authentication** with refresh tokens, API middleware for validation, error handling, and logging
- Established CI/CD pipeline with automated testing, systematic code review process, and Agile team workflow

PERSONAL PROJECTS

Event-driven E-commerce System

In progress

React, NestJS, PostgreSQL, MongoDB, RabbitMQ/Kafka, Docker, K8s, Prometheus, OpenTelemetry

- Building a small e-commerce system using **event-driven architecture** with reliability features (retries, idempotency)
- Implementing admin tools to trace, inspect, and reprocess failed events; full observability with OpenTelemetry

OverlayOS – Windows Desktop Widget Host

.NET 8, C#, WPF, CommunityToolkit.Mvvm, EF Core 8, SQLite, AssemblyLoadContext, DPAPI, Serilog, Application Insights, WebView2

- Built a **production-grade desktop widget host** with a secure community plugin system and isolated plugin loading via AssemblyLoadContext
- Implemented Clean Architecture with EF Core + SQLite persistence, DPAPI-based secure storage, and observability through Serilog and Application Insights

Secryx – Desktop Secret Inventory and Monitoring App

Tauri v2, Rust 2021, React 19, TypeScript 5, Vite 7, Tailwind CSS, SQLite (rusqlite), OS Keychain (keyring), Zustand

- Built a desktop app that scans env-like files across projects and centralizes secret inventory with source metadata and file-level traceability
- Implemented lifecycle tracking for **found/changed/removed/restored** secrets with history in SQLite and secure secret value storage via OS keychain

TypeW – Typing and Cognitive Training Platform

React 19, TypeScript 5, Vite 6, Tailwind CSS 4, Zustand 5, Vitest, ESLint, GitHub Actions, Vercel

- Built a browser-based platform with **41 playable modes and mini-games** across typing, reflex, memory, brain, and puzzle categories
- Designed a scalable modular game registry with centralized Zustand state, live WPM/accuracy tracking, and CI/CD + production deployment workflows

Portfolio Website

portfolio-yosr.vercel.app

Next.js, React, TypeScript, Vercel

- Responsive, multilingual portfolio with SSG/SSR, dark mode, animations, and i18n (English/French)

EDUCATION

ESPRIT – Computer Science Engineering

2020 – 2025

Ecole Supérieure Privée d'Ingénierie et de Technologies, Tunis

Lycee Soukra – CS Baccalaureate

2019

CERTIFICATIONS

MongoDB – Building RAG Apps Using MongoDB, 2025

Hadera – Hashgraph Developer Program, 2025

Honoris Online Academy – Sustainability, Work Ethics & Gender Equity, 2024

Saylor Academy – CS107: C++ Programming, 2022

LANGUAGES

English – Fluent | **French** – Professional | **Arabic** – Native
