Profile

Full-stack developer with 3+ years of professional experience delivering an ERP for the construction industry (Angular, Spring Boot) at Wico — owning the client relationship from needs to backlog to delivery and supervising junior developers. Founder of Veinpal (5 shipped products, full CI/CD). [1 LINE TAILORED TO COMPANY AND ROLE].

Key Achievements

- **3+ years** building an ERP end-to-end (Angular/Spring Boot); client needs -> **backlog** -> **delivery**
- Supervise and mentor **junior developers** at Wico (task assignment, code help)
- Founded and solo-built **Veinpal** — 5 shipped products on a Next.js 15/React 19 monorepo
- Improved scheduling efficiency by **40%** with intelligent algorithms (Ironbyte internship)
- Delivered an **AI medical diagnosis app** end-to-end: React, Flask, Hugging Face, RAG, CI/CD
- Built **41-mode** training platform (TypeW) with scalable game registry architecture

Experience

- Full-stack Developer (Angular/Spring Boot)** — Wico, ERP for construction 2024 – Present
- ERP development with Angular + Spring Boot (part-time 2024–2025, full-time since 2026); DevOps practices (CI/CD)
 - Client-facing: requirements gathering, backlog management, feature delivery; junior developer supervision
- Full-stack Developer (PFE Internship)** — Itserv, Tunis 02/2025 – 08/2025
- AI medical diagnosis app: React/TypeScript, Flask REST API, PostgreSQL + MongoDB, TensorFlow/Transformers
 - Full CI/CD (Jenkins, SonarQube) and monitoring (Prometheus, Grafana)
- Full-stack Developer (Internship)** — Ironbyte 2024
- Educational platform (NestJS, React, MongoDB) with automated timetable creation (+40% efficiency)
- Full-stack Developer (Internship)** — Ooredoo 2023
- Spring Boot services (DAO/DTO, secure REST) and Angular/PrimeNG front with real-time chat and admin tools

Skills

Frontend: Angular, React, TypeScript, Next.js, Zustand, Tailwind CSS **Backend:** Node.js, NestJS, Flask, Spring Boot, Java
Data: PostgreSQL, MongoDB, Redis, Prisma **DevOps:** Docker, Jenkins, GitHub Actions, SonarQube, CI/CD **Testing:** Jest, Cypress, Vitest, TDD
AI: LLM APIs (OpenAI, Claude), prompt engineering, AI-assisted development, RAG

Education & Languages

ESPRIT, Tunis — Computer Science Engineering studies 2020 – 2025
Arabic: Native **English:** Fluent **French:** Professional Certifications: MongoDB RAG (2025), Hashgraph (2025)
